1. System

Overview

1.1 Login

Get the parking management system software from Intellidata company ,install it , double click the following Icon to login the system.

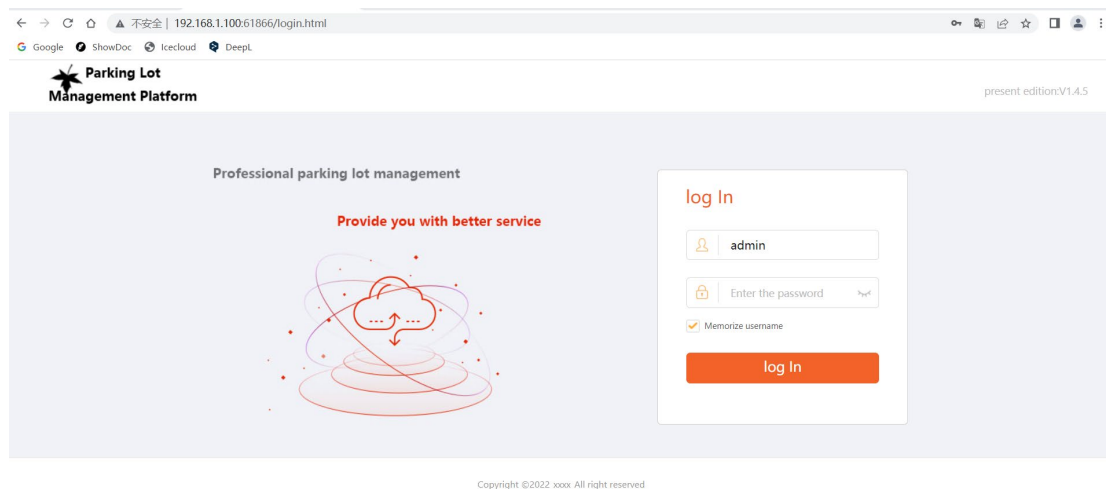

Also you can enter the URL in the browser (default port: 61866, for example 192.168.1.100:61866) to login the platform.

the default user name: admin

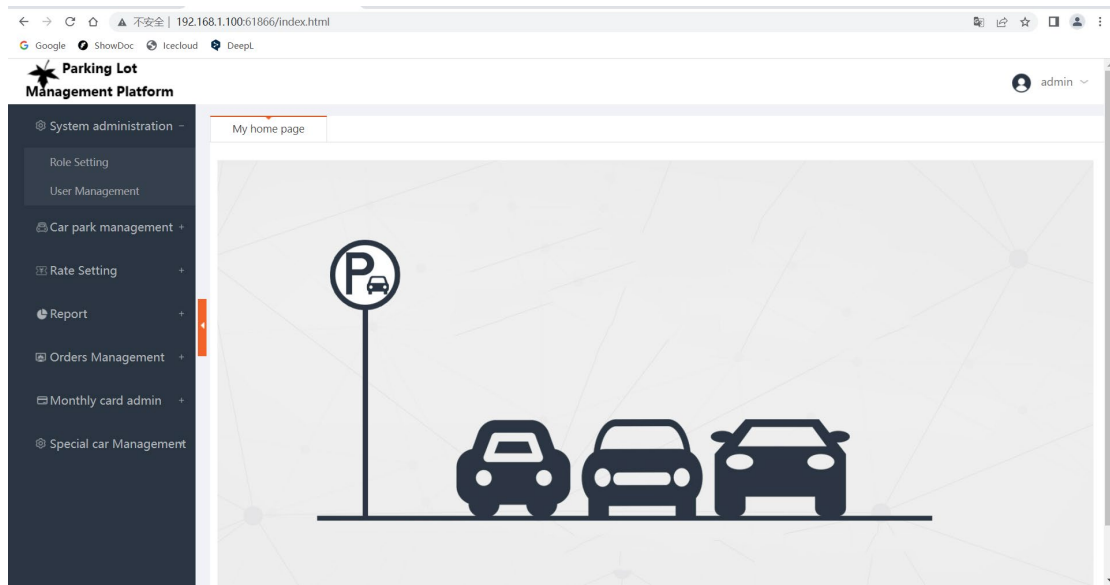

password: 123456;

Supported browser: IE11, Google, Firefox

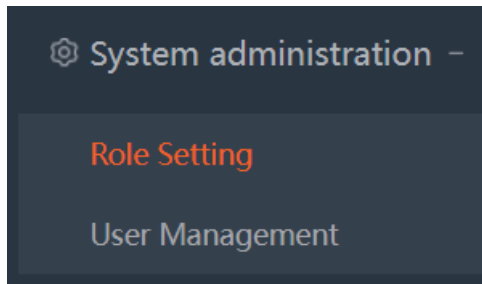

1.2 Homepage

The left is the menu bar, the right is the main window, the upper right shows the current user, click the triangle Icon to show the options about exit and password change.

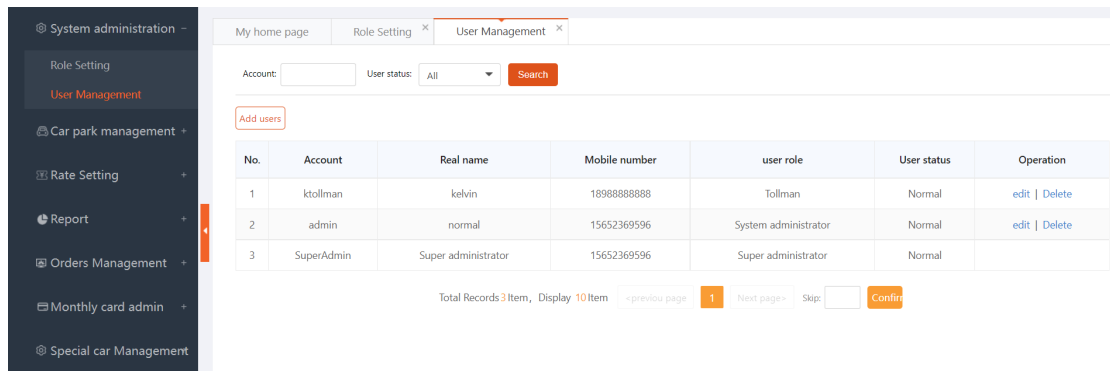

1.3 System Administration

This module consists of **【User Management】** and **【Role setting】** .

1.3.1 User Management

List all the user in user management.

Add users

click **add users** button to add user.

My home page Role Setting × User Management ×

*Account

*Initial password

*Real name

*Mobile number

*user role

edit

click **edit** ,the user role and status can be modified, from normal to frozen, when frozen user login the system it will prompt, the user has been frozen.
